

## **LEAVE OF ABSENCE<sup>1</sup> REQUIREMENTS FOR CONTINUING COMPETENCY IN NRP, CPR AND EMERGENCY SKILLS POLICY**

A registrant on a leave of absence from clinical practice, is not required to maintain continuing competence in neonatal resuscitation, cardiopulmonary resuscitation and emergency skills while on the leave of absence, so long as the registrant does not practise midwifery at any point during the leave.

The registrant must notify the Registrar, in writing, of the date that the leave of absence will begin. The registrant must inform the Registrar, in writing, of the return to practice and must provide the Registrar with evidence of current certification in neonatal resuscitation, cardiopulmonary resuscitation and emergency skills at the point of return to clinical practice.
